Chenagoni Nandini

Email:nandinichenagoni183@gmail.com

3rd Year B.Tech Student
Computer Science and Engineering
Vardhaman College Of Engineering

Academic Details

- **Vardhaman College Of Engineering** — Kacharam, Telangana
  B.Tech in Computer Science; CGPA: 9.1 — 2023 - 2027
- **Telangana State Board of Intermediate Education** — Hayathnagar, Telangana
  12th; CGPA: 9.7 — 2021 - 2023
- **Telangana Board of Secondary Education** — Nalgonda, Telangana
  10th; CGPA: 10.0 — 2021

Major Projects

- ***Job Scheduling and Management*** — VMEG HYD
  Data Structures & Algorithms: Prof. Subodh Kumar — *December 2023*
  - Designed Java module to handle multiple jobs of different users/projects, execute based on priority and budget available
  - Used multiple self-implemented & efficient data structures Trie, Min/Max Heap, and Red Black Tree to store data
- **Personalized Instagram Helper with Auto Posting Feature** — Independent Project
  Android Studio + Flask Server — April 2024
  - Built a server that takes text from google form responses, creates a picture using a template and posts it on Instagram
  - Created an Android App (Java) with options to manually approve or decline a response of google form before posting it
  - Used Flask, postgreSQL, PIL and instagrapi framework to implement the server. AWS is used for hosting
- **Large File Downloader using multiple TCP sockets (BitTorrent)** — KMIT HYD
  Computer Networks: Prof. Aditeshwar Seth — November 2024
  - Module programmed to download data in chunks by opening parallel TCP connections to server using multi-threading
  - Resilient to Error Handling and resumes downloading from the last received packet in case of any disconnection
- **Twitter Trending List on stream of large data** — NIT Warangal
  Cloud Computing and Fundamentals: Prof. Abhilash Jindal — March 2025 - April 2025
  - Designed a scalable and fault-tolerant application to process tweets on the fly and gives the top 10 words at any time
  - Deployed on a cluster of 3 nodes with network partitioning among the replicated storage systems on the nodes to build an eventually consistent system. Redis, RabbitMQ, and Celery packages are used for the concurrency & consistency

Technical Skills

- **Programming Skills**: R,Tableau,Java, Python, C, SQL, HTML & CSS
- **Frameworks & Tools**: pandas, sklearn, Springboot, Fx, Git, AWS CLI, Docker, Redis

Achievements

- Secured **3rd merit** in Class XII among more than **2,000,00** students who appeared in the exam
- Certified in Data Structures and Algorithms Program **(CCDSAP) by Codechef** - February, 2024
- Certified in Google Analytics by **Google**, demonstrating expertise in web analytics and data-driven insight-july,2025
- Mission Helix's Coding Contest **Rank 3** in All India organized by Coding Club, India - November, 2024

Position of Responsibilities

- **Teaching Assistant (TA): Logic for Comp. Science** - Fall 2022 and **Parallel Programming** - Spring 2023
- **Head Mentor BSW**: Responsible for the BSW mentorship program and guided the selected Student mentors - 2022
- **Student Mentor** -Served as a Student Mentor for the CSE Department First Year Students. Helped them get acquainted with the college studies and environment.
