CAREER OBJECTIVE

To put forth my full potential and work in challenging environment that provides generous opportunities for learning which brings fruitful results to contribute a small share in company's success.

EDUCATION

BCA (G H Raisoni University, Amravati)
2022 – 2025
CGPA - 9.33

Bajaj College Of Science, Wardha
2019– 2021
Percentage – 93.63%

SKILLS

Programmimg : Python (Numpy , Pandas, Matplotib, Seaborn) , AI

Data Visualization: Tableau (Basic), Ms Excel

Tools: Google Colab, Chat GPT

Other Skills: Data Standardization, Problem solving, Excellent Communication, Data cleaning and preprocessing, Report Building

CERTIFICATES

Data Analytics Job Simulation (Deloitte)

Data Standardization (Udemy)

Microsoft Excel Beginner to Advanced (Udemy)

Artificial Intelligence Course (Intellipaat)

EXPERIENCE

Edunet Foundation (Initiative by Microsoft and AICTE)
Gained hands-on experience in core AI concepts like machine learning, neural networks, and responsible AI. Built mini-projects using Python, collaborated in peer groups on real-world applications and ethics, and enhanced communication skills through project presentations.

Explore And Exposys Datalabs (Data Science Intern)
Worked on "Profit Prediction Using Machine Learning" project; built and optimized regression models using Python, Pandas, NumPy, and Scikit-learn to predict company profits. Applied Linear Regression, Random Forest, and SVM to analyze key financial factors and improve 94% model accuracy.

PROJECTS

Crime Data Analysis and Prediction

- Analyzed crime trends using Python & ML algorithms to predict crime occurrence.
- Built an interactive insights for data visualization.
- Identified crime hotspots to support law enforcement decisions.

Profit Prediction Using Machine Learning

- Developed and implemented a machine learning model to predict company profit by analyzing historical financial data.
- Utilized data preprocessing, feature engineering, and model optimization techniques to enhance prediction accuracy and provide actionable insights for business decision-making.
- Skills Demonstrated: Machine Learning, Data Preprocessing, Regression Analysis, Model Optimization, Stakeholder Communication.

AWARDS

IBM Digital Sticker - Use Gen AI for Software Devlopment Internshala -

Volunteering Internship at Muskurahat Foundation

Mahindra Classroom -Attended workshop Employability Skills training program

Wadhwani Foundation - Certification of Effective Speaking and Listening Skills
