Career Objective

B.Tech student with strong leadership, discipline, and a growth mindset seek challenging opportunities where I can apply my knowledge in Real World Applications, and grow Technically and professionally while enhancing the Company's goals and building great Foundation for my Career.

Education

Parul University, Vadodara — **CGPA: 7.43**
B.Tech in Computer Science Engineering — *2022–2026*

Jawahar Navodaya Vidyalaya — **81.00**
Intermediate (MPC) — *2020–2022*
Mathematics, Physics, Chemistry

Jawahar Navodaya Vidyalaya — **80.20**
CBSE — *2019–2020*

Technical Skills

Programming Languages: Java, Python, C
Web Technologies: HTML5, CSS3, JavaScript, Node.js, React
Database Management: MySQL, MongoDB
Tools & Platforms: Git, VS Code, Linux,Power BI, Tableau, Pandas, Matplotlib

Academic Projects

Phishing Email Detector:
- Built a Python Flask-based tool that uses machine learning to detect phishing emails via content, tone, and link behavior.
- Implemented NLP, phishing keyword analysis, and real-time link validation .
- Delivered a dynamic web interface with pre-trained models for secure, real-rime phishing identification.

Traffic Accident Hotspot Analysis using Python & Jupyter Notebook:
- Analyzed government traffic accident data using Pandas, Seaborn, Matplotlib .
- Identified top 10 high-fatality states and visualized accident hotspots.
- Exported insights into a structured PDF report.

FlashLearn:
- Developed a full-stack web application using Java (Spring Boot), React for Frontend and MySQL to enable Students to take Quizzes Dynamically.
- Designed Different User Interfaces and Used Excel Parsing for Uploading User Details and Quizzes.
- Added a new Feature called FlashCards to allow Students to store the Important Questions for future Revision also added Notes Feature.

Certifications

Computer Network & Internet Protocol :
NPTEL, 2024
Digital Skills: Web Analytics: Accenture, 2025
Data Science & Analytics: Hp, 2025
SQL (Advanced): HackerRank, 2025
