POORVI JAIN

Data Analyst Intern

Enthusiastic and motivated with a keen interest in data analytics and a strong foundation in computer science principles. Currently undergoing training in data analytics, equipped with essential skills in statistical analysis, programming, and data visualization. I like to solve problems and I'm always eager to learn new things. I want to use what I've learned in school and my training to help companies make smart decisions based on data. I'm good at talking to people and working well with others in different parts of a company.

Responsibilities and Duties

- Gather and compile data from various sources, ensuring its accuracy and completeness.
- Preprocess raw data to remove inconsistencies, errors, and missing values.
- Apply statistical and analytical techniques to analyze data, identify patterns and trends.
- Create visual representations of data using tools like Tableau, Power BI, or matplotlib to present findings effectively to stakeholders.
- Prepare reports and presentations summarizing analysis results and insights for management and other stakeholders.

Key Skills

- Ability to analyze large datasets.
- Proficiency in programming languages like Python.
- Understanding of basic statistical concepts.
- Ability to think critically and creatively to frame business problems.
- Strong problem-solving skills.

Training Certification

- Completing internship (January 2023 – April 2023) From SUNSTONE at GURUGRAM, HARYANA.
