EDUCATION

Graphic Era Hill University Dehradun, India
Master of Computer Applications(MCA) *2023 – 2025*

Graphic Era Hill University Dehradun, India
Bachelor of Science in Information Technology (BSC-IT) *2020 – 2023*

Gautam Internation Sr.Secondary School Dehradun, India
Class XII *2019 – 2020*

PROJECTS

Emotion Based Music Player (Machine Learning) (Developed in 2023)

- Built a desktop-based intelligent music player that detects users' emotions from facial expressions and plays songs accordingly.
- Utilized OpenCV and Haarcascade classifiers for real-time face detection and emotion recognition from webcam input.
- Integrated EEL (Python-JavaScript bridge) to create a user-friendly GUI with web-based frontend and Python backend.
- Preprocessed image data using NumPy to enhance detection accuracy and efficiency.
- Enhanced user experience by categorizing songs based on emotions like happy, sad, angry, and neutral, enabling automatic playlist generation.

Diabetes Prediction (Developed in 2023)

- Developed an interactive web application to predict diabetes likelihood based on user inputs (age, glucose level, BMI, etc.).
- Employed **machine learning models** (e.g., Logistic Regression, Random Forest) for binary classification using a cleaned and preprocessed dataset.
- Designed the interface using **Streamlit**, allowing real-time predictions, user inputs, and visualizations (e.g., bar charts, probability outputs).

Note keep Application (Developed in 2024)

- Created a dynamic, CRUD-based note-keeping web application to help users securely create, edit, delete, and search notes.
- Implemented **ReactJS** on the frontend for a responsive UI with real-time rendering and routing features.
- Used **MySQL** for structured data storage and retrieval, ensuring persistent data handling and relational integrity.
- Integrated **RESTful APIs** for communication between frontend and backend, ensuring efficient data flow.

ACHIEVEMENTS

- Certificate for C training(IIT Bombay, 4 December 2023).
- Oracle SQL (Great Learning, April 2023).
- Advanced Cyber Security Threats and Governance (Great Learning, June 2023).
- Foundation of User Experience(UX) design (Google, May 2025).

TECHNICAL SKILLS

Core: Data Structure and Algorithms, Operating System, Database Management System, Computer Networks.
Languages:C, C++ , HTML , CSS, JavaScript, Python, Java, PHP, MySQL
Developer Tools: Visual Studio Code, GitHub, Android Studio, Eclipse,Git
