PROFESSIONAL SUMMARY

Aspiring Data Scientist with expertise in Python, machine learning and data analysis. Skilled in building end-to-end ML pipelines and creating dashboards with Power BI and Streamlit. Passionate about solving real-world problems through data-driven insights and collaboration in Agile teams.

PROJECT

DEMENTIA DETECTION AND ANALYSIS SYSTEM: *December 2024 - May 2025*

Tools: Streamlit, Pandas, Matplotlib, Seaborn, Scikit-learn

A system to predict dementia of a person using Ensemble Machine Learning Methods

Responsibilities:

- Developed and implemented a ML model using scikit-learn for early-stage dementia detection based on data.
- Designed an interactive web interface using Streamlit to visualize and analyze dementia prediction results.

REAL ESTATE PRICES ESTIMATION SYSTEM: *February 2022 - May 2023*

Tools: Random Forest Regression, Flask, HTML, CSS, JavaScript, Matplotlib, Pandas

A system to predict prices of houses prior to purchase for analysis their rates using Machine Models.

Responsibilities:

- Developed and implemented a Random Forest Regression model for accurate real estate price prediction based on data.
- Designed and built a user-friendly web interface using Flask, HTML, CSS, and JavaScript for seamless interaction with the model.

EDUCATION

Malla Reddy College of Engineering and Technology **Hyderabad, Telangana**

BTech in Computer Science and Engineering (Data Science) ***CGPA*** *7.28* ***May*** *2025*

CERTIFICATIONS

- **Introduction to Business Intelligence** by Infosys springboard
- **Multidimensional Data Modeling** by Infosys springboard
- **Database Management System - Science Graduates** by Infosys springboard
- **Big Data** by Infosys springboard
- **Data Science** by Infosys springboard
- **Cloud Technologies** by Infosys springboard
- **Software Engineering and Agile software development** by Infosys springboard
- **Introduction to Entity Relationship ER Modeling** by Infosys springboard
- **Power BI for Business Professionals** by Infosys springboard
- **Learning Microsoft Power BI** by Infosys springboard
- **TechA Data Analytics using Power BI Foundation Certification** by Infosys springboard
- **The Complete SQL Bootcamp: Go from Zero to Hero** by Udemy

SKILLS AND TOOLS

Programming Languages: Python, Java, C, R, JavaScript, HTML, CSS, SQL, MySQL

Data Science & Machine Learning: Scikit-learn, Pandas, NumPy, Seaborn, Matplotlib, KNIME, Power BI

Cloud & Big Data Technologies: Apache Spark, Apache Beam, Apache Airflow

Web & App Development: Flask, Streamlit, HTML/CSS, JavaScript

Tools & IDEs: VS Code, PyCharm, MS Office, Git
