MAHIBA JEYARAJ

+91-7276161144 |Mumbai, Maharashtra, IN | mahiba.jeyaraj29@gmail.com |

linkedin.com/in/mahibajeyaraj/

PROFESSIONAL SUMMARY

Hardworking and dependable person with a positive attitude and a strong ability to handle multiple tasks at once. Always ready to take on new responsibilities and help the team reach its goals. Known for being organized, flexible, and a supportive team member.

EDUCATION

Fr. Conceicao college of Engineering, *Bandra* *Sept 2024 - Jun 2026*
MTech in Computer Engineering
CGPA: 9.4

St Francis Institute of Technology, *Borivali* *Oct 2020-Jul 2024*
B.E. in Information Technology Engineering with Honors in AIML specialization
CGPA: 8.59

SKILLS

Python, Machine Learning, Java(DSA, Algorithms, Springboot, backend), JavaScript, HTML, CSS, Deep Learning (algorithms and models), Databases(SQL, PostgreSQL, MongoDB), API testing(Postman), Data Analysis & Visualization(MS Excel (pivot tables), SQL, PostgreSQL, Power BI, Python (pandas, numpy, matplotlib), Tableau)

PROJECTS

ForensiCLIP: An Explainable VQA with DeepFake document forgery Apr 2025

- The Clip architecture consists of two primary components: the image encoder and the text encoder where the image encoder processes document images to extract visual features and the text encoder interprets forensic questions as textual prompts.
- These features are fused through element-wise multiplication to create a multimodal representation that is passed through a classification head for binary classification (genuine or forged).

Image Recognition using CNN Feb 2025

- Utilized pre-trained deep learning models such as VGG-16, ResNet, and Inception V to develop an advanced image classification system.
- Modified the network head of VGG-16 to adapt it for a custom multi-class image classification task, enhancing model performance and accuracy.

To-do list application Dec 2024

- This is a Spring Boot REST API application with a basic implementation of CRUD operations. The functionality was tested using the Postman testing tool.
- Users can add, update, and delete lists. Additionally, they have the option to mark a list as "done" if needed.

TextifyMe – Digitize with Ease (BE Final year Project) 2023 - 2024

- Employing advanced DL (Deep Learning) and ML (Machine Learning) techniques, including transformer models for handwritten conversion and the T5 model for summarization, alongside the Google Trans library for language translation along with UI framework using html, css and bootstrap

- This project streamlines digital text conversion processes, enhancing accessibility and usability.

ACHIVEMENTS

- District Winner of Maharashtra Innovation Student Challenge in Mumbai Suburban (Jan-2024) for my Final Year BE project

CERTIFICATIONS

- Data Science and AI masters 2025 - Udemy
- Deep Learning with PyTorch : Generative Adversarial Network – Coursera
- Deep Learning for Text with PyTorch – datacamp
- AWS Academy Graduate - AWS Academy Microservices and CI/CD Pipeline Builder
- AWS Academy Graduate - AWS Academy Machine Learning Foundations
- Python programming Course- Bolt Iot
- Deep learning - Infosys springboard
- AWS Academy Graduate - AWS Academy Cloud Web Application Builder
- AWS Academy Graduate - AWS Academy Cloud Security Builder
- Java Course - udemy
- AWS Academy Graduate - AWS Academy Cloud Architecting
- Pytorch for AI – Infosys springboard
- Data science and All advanced course 2025 – udemy
- SQL and PostgreSQL – udemy
- Html, css & Javascript course - udemy

HOBBIES/INTERESTS

Reading, Adventuring, Drawing, Classical Music & Singing

LANGUAGES KNOWN

English, Hindi, Marathi, Tamil

SOFT SKILLS

- Communication: Articulate and effective communication in verbal and written forms, fostering clear understanding and collaboration.
- Adaptability: Quick to adapt to changing environments and circumstances, remaining flexible and open-minded.
- Problem-solving: Proven ability to analyze complex problems, develop creative solutions, and implement effective strategies.
- Teamwork: Collaborative and cooperative, adept at working harmoniously with diverse teams to achieve common goals.
- Leadership: Demonstrated leadership qualities, inspiring and motivating team members towards excellence and success.
- Time Management: Efficiently manage time and resources to prioritize tasks and meet deadlines consistently.
- Critical Thinking: Strong critical thinking skills, capable of evaluating information objectively and making informed decisions.
- Resilience: Ability to bounce back from setbacks and challenges, maintaining a positive attitude and perseverance.
