Madhu Boddula

warangal boddulamadhu2020@gmail.com 7981335183 madhu44 BoddulaMadhu

Skills

Programming Languages: Java,Python

Technologies: HTML,CSS,SQL,JavaScript

Tools: Windows,Linux,GitHub

Soft Skills: Communication,Leadership

Education

B.Tech **Balaji Institute of Technology Science** 2021-2025

Warangal, Telangana
I am pursuing graduation in B.Tech where I am studying about Computer Science and Engineering

12th **Narayana Junior College** 2019 – 2021

Hyderabad, Telangana
I have completed 12th in MPC in Production form Narayana Junior College of affiliated from (TSBIE)

10th **SR High School** 2018 – 2019

Warangal,Telangana
I have completed my 10th class

Experience

Accenture Data Analytics Virtual Internship Jan 2025 – Feb 2025

- Completed hands-on, simulated data analytics tasks mirroring real-world client projects, focusing on data cleaning,visualization,and actionable insights generation.
- Developed client-ready reports synthesizing technical findings into non-technical recommendation,improving cross-funtional collaboration skills.

MYSQL and LINUX Administration Workshop 26thJune 2023 – 28thJune 2023

- I have completed Workshop on MYSQL and LINUX Held by Swecha Telangana in Balaji Institute of Technology And Science(BITS) Narsampet

Projects

AI Image Generator Feb 2025 - May 2025

- AI-powered Image Generation Website in HTML,CSS, and JavaScript.
- On this website,users enter their prompt to create AI-generated images.
- This website is similar to Mid Journey and DALL-E and works on all devices.
- I have used Hugging face Model API for image generation.

Smart Irrigation System using Arduino github.com/BoddulaMadhu/repo

- Designed and developed an automated irrigation system using Arduino,integrating soil moisture sensors,water pumps, and relay modules to optimize water use for Irrigation.
- used Arduino IDE for programming and C/C++ for creating efficient control algorithms.

Certification

Python FullStack: Python Programming Full Stack

Accenture: Data Analytics and Visulization

Swecha: Mysql and Linux

Publication

Published Paper: Smart Irrigation System using Arduino
