Neha Gaharwar

nehagaharwar.mca22@rvce.edu.in 9142195701 Neha Gaharwar Nehagaharwar1998

Career Objective

"Computer Science graduate with hands-on experience as a Software Development Intern, proficient in [mention key skills like Java, React, Node.js, etc.]. Seeking a full-time Software Development Engineer role to apply my practical knowledge, contribute to impactful projects, and continue growing as a developer in a dynamic tech environment."

EDUCATION

R. V. College of Engineering

Master of Computer Applications - MCA - 7.94 2022 - 2025

M.M.Mahila College

Bachelor of Computer Applications- BCA - 68% 2017- 2021

PROJECTS

1)Student Management System using Hibernate & MySQL

- Description: Developed a Student Management System using Hibernate ORM for object-relational mapping. The system supports CRUD operations like inserting, deleting, searching, and displaying student records in a MySQL database.
- Key Features: CRUD functionality, database connectivity, ORM integration.
- Technologies Used: Java, Hibernate ORM, MySQL, JDBC, Eclipse.

2) Music Player App

- Description: Built a user-friendly music streaming platform offering personalized music recommendations, playlist management, and real-time music playback. Users can explore songs, albums, and playlists tailored to their preferences. Used REST APIs for secure data exchange between frontend and backend.
- Technologies Used: Node.js, JavaScript, HTML, CSS, MySQL, REST APIs
- Key Features: Secure login, playlist CRUD operations, real-time music playback, and data persistence using MySQL.

3) Real-time Face Recognition Attendance System

- Description: Developed a real-time Face Recognition Attendance System leveraging advanced face recognition technology to automate attendance tracking. The system efficiently identifies individuals based on facial features, catering to schools, offices, and other organizations.
- Key Features: Secure user authentication, real-time data processing, and CRUD operations for managing attendance records.
- Tools & Technologies: Python, OpenCV, NumPy, Pandas, TensorFlow, VS Code
- Algorithms: Haar Cascade (face detection), LBPH (Local Binary Patterns Histogram) (face recognition)

Technical Skills:

- **Programming Languages:** Proficiency in Java, Python
- **Data Structures & Algorithms:** Strong understanding of DSAs and their time & space complexities.
- **Problem-Solving:** Ability to tackle complex, real-world challenges efficiently.
- **Software Development:** Knowledge of end-to-end feature development, from ideation to deployment.
- **System Design:** Basic understanding of designing scalable and efficient systems.
- **Version Control:** Familiarity with Git and GitHub
- **Databases:** Understanding of SQL databases for data handling.

CERTIFICATE

1) Software Engineering Fundamentals - Software Development and Testing

2) **AWS Services Fundamentals for Beginners**

LANGUAGE

English and Hindi

Soft Skills

- **Collaboration & Teamwork**
- **Problem-Solving & Analytical Thinking**
- **Ownership & Accountability**
- **Adaptability & Learning Agility**
- **Communication Skills**
