Linkedin: https://www.linkedin.com/in/pradeep-kumar-patil-8203ba231

Address: Basavakalyan, Dist: Bidar Karnataka (585327)

OBJECTIVE

"Motivated Computer Science And Engineering (CSE) student with a strong foundation in programming and a passion for software and web development. Seeking an opportunity to leverage technical skills in coding, web design, and problem-solving to contribute to innovative projects, enhance user experiences, and grow as a developer in a dynamic and challenging environment."

EDUCATION

Bheemanna Khandre Institute Of Technology Bhalki.

Bachelor of Engineering, (2021-2025)

I successfully completed my Computer science and engineering(CSE).

Sankalp Independent pu college Basavakalyan.

Pre-University Course, (2019-2021)

*I successfully completed my Secondary Pre-University course (PUC) with a **70%.***

Adarsh Vidyalaya Rajola SSLC, (2019)

*I successfully completed my Secondary School Leaving Certificate (SSLC) with a **83%.***

SKILLS SUMMARY

- **Languages**: JAVA, Python, HTML/CSS, C, Data Structure and SQL.
- **Technologies / Frameworks**: Git-GitHub, Docker, Junkins.
- **Developer Tools**: VS Code, Eclipse, Android Studio, Microsoft Word, Microsoft Excel, Microsoft Power point.

WORK EXPERIENCE

National Skill Development Corporation India (NSDC) **Sept 2024 – March 2025**
DevOps Intern, By Rooman Technologies and IBM. Bhalki, dis.Bidar Karnataka (585327)

About the role :

• Learning fundamentals and concepts of Python.
• Control systems with Git and GitHub.
• Learning containerization with Docker and Kubernetes.

PROJECTS

1. A Hybrid Deep Learning Framework for Early Diagnosis of Alzheimer's Disease. **(Developed using Python)**

Final Year Major Project | Python | Deep Learning | Healthcare AI

- Developed a project to Detect Alzheimer's disease using Brain MRI images.
- Used Python and Deep learning (CNN) and real MRI image datasets.
- Performed image preprocessing and Model optimization.
- Achieved high accuracy and fast prediction results, helping doctors with early diagnosis and improving patient care.
- Through this project, Gained hands-on experience about AI in Healthcare, Deep Learning and how to work with real-world data handling.

2. Online Education System. **(Developed using Core Java)**

- Designed and implemented a Java-based system to streamline academic information management.
- Automated tasks such as student record maintenance, subject information handling, and performance tracking.
- Utilized Java libraries to create a user-friendly interface and ensure efficient data processing.
- Enhanced operational efficiency by reducing manual errors and improving data accessibility.

3. Hotel Management System. **(Developed using Core Java)**

- The features such as room booking management, guest information management and hotel service management.
- This project achieved improved efficiency, reduced errors, and enhanced user experience.
- Through this project, I demonstrated skills in OOP concepts, database integration, and problem-solving skills.

CERTIFICATES

- **DevOps Intern, National Skill Development Corporation India (NSDC)** (September 2024 to March 2025)
- **Java Programming Intern, BKIT BHALKI / QSPIDERS Campus Connect** (07th November 2023 to 01st December 2023)
- **Java and MySQL Intern, BKIT BHALKI / VIVEK-IT Campus Connect** (15th October 2022 to 05th November 2022)
