Gurgaon-122004

AI & Data Science enthusiast with hands-on experience in data analytics, deep learning, and full-stack development, building impactful real-time and cloud-deployed solutions.

KEY STRENGTHS & EXPERTISE

Data Science & AI	Development & Tools	Cloud & Deployment
Data Cleaning (Pandas, NumPy)	Full-Stack Development (React, Node.js, Express)	Google Cloud Platform (Vertex AI, Colab, Storage)
EDA & Visualization (Matplotlib, Seaborn, Plotly)	Dashboarding (Power BI, Tableau, Streamlit)	Streamlit App Deployment (Streamlit, GCP)
ML Modeling (Scikit-learn, XGBoost, Keras)	API Integration & Automation (Python)	Version Control & Collaboration (Git, GitHub)
Deep Learning (TensorFlow, Keras)	Database Management (SQL, MySQL, MongoDB)	
Natural Language Processing (Review Analysis)	Real-time CV (OpenCV, DeepFace)	

ACADEMICS CREDENTIALS

|| **Bachelor of Technology (B.Tech)** in Computer Science and Engineering – Specialization in Artificial Intelligence
[Gurugram University], [Gurugram]
Currently in 6th Semester | Expected Graduation: 2026 ||
|| **Senior Secondary (Class 12)** – CBSE
[Aakash Public School], [Gurugram]
Year: 2022 | Aggregate: 94% ||

EXPERIENCE

SCJ Entertainments – Junior Website & App Developer (AI & Data Science Team Lead) ***June 2025 – July 2025***

- Led the AI & Data Science team in developing interactive web applications and monetization dashboards.
- Built React-based calculators (CPM, AVOD, and multi-model revenue dashboards) integrating backend APIs.
- Designed an FAQ chatbot and ticket-based support system using Flask, MySQL, and TF-IDF similarity.
- Deployed applications and managed version control using GitHub and cloud tools.

Movenetics Digital – AI Engineer Intern ***August 2025 – Present***

- Developing and optimizing AI/ML models for real-time applications.
- Implementing data analysis pipelines, integrating APIs, and deploying solutions on cloud platforms.

PROFILE & ACHIEVEMENTS

Executed Data Analysis Projects:
Performed exploratory data analysis on the Netflix dataset and British Airways customer reviews using Python (Pandas, Matplotlib, Seaborn), extracting meaningful business insights and trends.
Analyzed airline booking patterns using SQL and visualized trends using Power BI.

Parkinson's Disease Detection using Deep Learning:
Collaborated in a team of three to analyze 40+ research papers. Curated datasets based on precision, recall, and accuracy, and applied DL models to classify Parkinson's from drawings and speech samples.

Real-time Computer Vision Projects:
Developed projects like **Face Recognition with Age, Gender, Emotion Detection**, and **Drowsiness Detection using** OpenCV and DeepFace. Deployed real-time systems using webcam input.

Full-stack and Frontend Development Projects:
Built responsive and interactive web apps like **NewsDaily**, **iNotebook**, and **OctaveFlow** using React.js and integrated APIs and databases for dynamic content rendering.

SOFTWARE & TECHNICAL SKILLS

- **Programming Languages**: Python, JavaScript (Basic), C++ (Intermediate)
- **Data Analysis**: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Plotly
- **Machine Learning & AI**: TensorFlow, Keras, XGBoost, OpenCV, DeepFace
- **Database Management**: MySQL, MongoDB
- **Cloud & Deployment**: Google Cloud Platform (Vertex AI, Cloud Storage), Streamlit, Google Colab
- **Web Development**: React.js, HTML, CSS, Node.js (Basic), Express.js (Basic)
- **Version Control**: Git, GitHub
- **Tools & IDEs**: Jupyter Notebook, VS Code, PyCharm, Anaconda

HACKATHONS

- The Big Biz Theory 2025(Case Club IITM)
- Solution Challenge

COURSES & CERTIFICATIONS

- **Machine Learning Specialization** – Coursera (Stanford University & DeepLearning.AI)
  Covered supervised learning, model evaluation, regularization, and foundational ML algorithms.
- **Deep Learning with TensorFlow** – Coursera
  Hands-on implementation of neural networks, CNNs, and model optimization using TensorFlow.
- **Data Analytics Virtual Internship** – Forage (offered by KPMG)
  Simulated real-world analytics tasks: data assessment, model building, and presenting business recommendations.
- **Software Engineering Virtual Experience** – JPMorgan Chase & Co.
  Worked on simulated software engineering challenges, including feature implementation, debugging, and Git collaboration.

PERSONAL DOSSIER

- **Language Known:** English, Hindi
- **Date of Birth:** 30.11.2004
