PROFESSIONAL SUMMARY

Highly skilled web and software developer with expertise in HTML, CSS, JavaScript, React, Python, and C++. Adept at building responsive web applications and developing efficient back-end solutions. Passionate about delivering innovative and scalable digital solutions through clean code and modern technologies.

SKILLS

FRONTEND WEB DEVELOPER

DATA STRUCTURE AND ALGORITHMS IN C++

WEB TECHNOLOGIES : HTML, CSS, JAVASCRIPT , REACT

Languages : Python, C, C++

EDUCATION

Delhi Skill And Entrepreneurship University - Delhi, India 2024–2027

B. Tech: Computer Science

8.6 / 10 CGPA

RELEVANT EXPERIENCE

GeeksforGeeks Noida March - June 2024

DSA Intern

- Developed and optimized algorithms for complex problem-solving, improving code efficiency by 25%.
- Implemented and tested data structures, such as trees, graphs, and hashmaps, in real-world projects.
- Conducted debugging and performance analysis, reducing execution time by identifying bottlenecks.

GeeksforGeeks Noida March - June 2024

MERN Stack Intern

- Developed and maintained web applications using the MERN stack (MongoDB, Express.js, React, Node.js)
- Collaborated with a team to design and implement new features and functionalities
- Assisted in debugging and optimizing code for better performance
- Participated in code reviews and contributed to improving coding standards

PROJECTS

Hospital management system for city

Project link - https://dap per-kashata-8a950f.netlify .ap p/

- Designed and implemented a centralized system to track and manage hospital bed availability across the city.
- Integrated real-time updates and analytics, improving resource allocation efficiency by 30%.
- Developed a user-friendly interface for hospitals and administrators to monitor, book, and report bed statuses.
