SUMMARY

Enthusiastic and results-driven Computer Science student with a specialization in IoT and Cybersecurity, seeking an internship opportunity to apply and enhance my skills in software development, data management, and mobile application development.

PROJECT

Medicine Alarm System

Technologies Used: Android Studio, Java, SQLite, Python

- Developed a mobile app to notify users of scheduled medicine intake.
- Integrated diet plan suggestions tailored to specific medications.
- Provided consultation on side effects and precautions for entered medicines.
- Streamlined management of medicine logs and alerts for a more organized user experience.

Geolocation-Based Attendance Tracking App

Technologies Used: Android Studio, Google Maps API, Firebase, Java, HTML/CSS

- Developed a mobile app to track employee check-ins/outs via geolocation.
- Added manual check-ins for offsite work and flexibility.
- Automated total working hours calculation, including breaks.
- Created a secure web interface with user signup/login for attendance access.
- Utilized Firebase for real-time data syncing and verification.

ACHIEVEMENT

- **Ranked in Online Coding Competitions**: Demonstrated strong problem-solving skills
- **Active NSS Member**: Contributed to community service and personal development
- **Winner, SIH 2024:** Recognized for developing an innovative and impactful solution to a real-world problem statement.

SKILLS

Microsoft Office, Microsoft Office, Excel, Powerpoint, Account Management, Strategic Planning, Social Media Marketing, Content Marketing, Online Marketing, Pivot Tables, Public Relations, Market Research, Event Coordination, Salesforce, Learning & Development,

Programming Languages: C, C++, Python

Web Development: HTML, CSS, JavaScript

Tools & Technologies: DBMS, Operating System, MongoDB

EDUCATION

Heritage Institute of Technology, Kolkata
Bachelor of Technology (B.Tech) in Internet of things & Cyber Security

Expected Graduation: [JUNE, 2026]

CGPA:7.78

LANGUAGE

- ENGLISH
- HINDI
