H No: 1-165 , Syndicate Nagar , Anantapur (District)
Andhra Pradesh (State)

CAREER OBJECTIVE

Aspiring Artificial Intelligence and Data Science professional with a solid foundation in programming, data structures, statistics, and machine learning. Passionate about transforming complex datasets into actionable insights and developing intelligent systems that solve real-world problems. Eager to join an innovative organization,s where I can contribute to data-driven decision making, optimize processes through AI models and grow continuously by working on challenging, impactful projects alongside experienced professionals.

TECHNICAL SKILLS/SOFT SKILLS

Python	Team management
SQL	Critical thinking
HTML	Problem solving
JavaScript	Communication skill

EDUCATION

Bachelor of Technology (B.Tech) - Artificial Intelligence and Data Science

Saveetha university

2023 - 2027 Chennai, India

CGPA **10** / 9.2

Intermediate - MPC (State Board)

Narayana Junior College

2021 - 2023 Anantapur, India

GPA **10** / 9.0

Secondary School Certificate (SSC - State Board)

Sri Chaitanya Educational Institutions

2019 - 2020 Anantapur, India

GPA **10** / 9.7

PROJECTS

AI-Powered Trading: revolutionizing decision-making in financial markets using Linear regression algorithm over SVM

2023 - 2024 Chennai, India

Short summary of your work

- Developed a stock price forecasting model using Linear Regression and SVM
- Analyzed market trends and implemented a regression-based strategy for improved accuracy
- Demonstrated enhanced decision-making capabilities for real-time trading scenarios

AI-Powered Investmen revolutionizing decision-making in the stock market using Linear Regression algorithms over Random Forests.

2023 - 2024 Chennai, India

Short summary of your work

- Designed a hybrid model combining Linear Regression and Random Forest for portfolio prediction
- Enhanced investment recommendations through comparative analysis of ML algorithms.
- Integrated market behavior patterns to optimize investment strategies
