Ghaziab , Uttar Predesh , India

PROFESSIONAL SUMMARY

Motivated Computer Science student with strong analytical and programming skills, seeking an AI/Machine Learning internship. Passionate about building intelligent systems with demonstrated skills in Python, Artificial Intelligence Deep Learning, Natural learning processes and machine learning. Eager to contribute to real-world AI applications through innovation and collaboration.

EDUCATION

Bachelor Computer Application in Artificial intelligence and Machine Learning
Galgotias University, Greater Noida, Uttar Predesh
Expected Graduation: July 2026
Relevant Coursework:
Machine Learning, Data Structures & Algorithms, Probability & Statistics, Computer Networks, Natural learning process, Cognitive computing

EXPERIENCE

Artificial Intelligence Intern
Edunet Foundation | SHELL, Bangalore, Karnataka, India
June 2025 – July 2025

- Contributed to green technology project using AI-based solutions
- Developed ML model to predict CO_2 emissions using vehicle data
- Tools used: Python, pandas, scikit-learn, Matplotlib

Artificial Intelligence & Machine Learning Intern
Edunet Foundation |IBM Skillsbuild, INDIA
June 2025 present

- Learn and built a linear regression model to predict salaries based on experience.
- Used Python, pandas, and Matplotlib for data handling and visualization.
- Evaluated model accuracy using R^2 score and MSE metrics.

PROJECTS

Carbon Emission Prediction
📅 June 2025 – July 2025 | 🔗 GitHub

- Built a regression-based ML model to predict CO_2 emissions using engine features
- Tools used: Python, pandas, NumPy, scikit-learn, Matplotlib

Vellora – Communication System for dumb & deaf people
📅 April 2025 | 🔗 GitHub

- Developed a sign language–enabled chatbot to bridge communication gaps for hearing or speech-impaired users, enhancing accessibility in digital interactions.

Employee Salary Prediction Model
📅 June 2025 | 🔗 GitHub

- Developed an ML model to predict salaries based on experience and role
- Achieved strong accuracy using R^2 and visualized insights with Seaborn

SKILLS

- **Technical:** Python, Java, HTML, CSS, JavaScript, PHP, MySQL, scikit-learn, pandas, NumPy, Git
- **Soft Skills:** Problem-solving, Time Management, Collaboration
- **Tools/Software:** GitHub, Jupyter, VS Code, Canva

ACTIVITIES

- **A Galgotias Student Council 's Robotics Club , Member**
- **Code Astra Hackathon**, Participant – Built and demoed an NLP project
- **Tech Fest 2025**, Core Volunteer – Stage Management & Program Scheduling
